

RESTOTM

Technical Product Data

a) Product Name	RESTO BOND
b) Reference Number	P.P.4
c) Product Description	An extremely durable and flexible product designed for maximum long term use on Masonry Substrates. Resto Bond offers excellent adhesion and superior weather and water resistance, in addition to these benefits Resto Bond has low dirt pick-up and is especially resistant to alkaline substrates and chalking.
d) Uses	An ideal product for both interior and exterior surfaces giving long term protection on Masonry substrates.
e) Pack Sizes	5 & 10 litres
f) Colour Range	Supplied on request.
g) Specific Gravity	1.40
h) Solids	40%
i) Flash Point	N/A
j) Spreading Rate	3.00 Sq. Metres per litre - 2 coats.
k) Drying Time	3 hours
l) Overcoating Time	Not less than 8 hours
m) Lowest Application Temperature	5 °C
n) Dry Recommended Application Thickness D.R.A.T	130 Microns from 2 coats
o) Methods of Application	Brush, roller and spray.
p) Storage Life	1 year
q) Thinner / Cleaner	Water
r) Precautions	Protect from frost.
s) Safety	The use of a good filter mask is advised when spraying, splashes in the eyes must be washed out at once with plenty of clean water.
